Personal Details

- Title : QA Engineer | Manual Tester | API Testing | Selenium Automation

Professional Summary

- QA Engineer with hands-on experience in manual testing, functional testing, regression testing, smoke testing, sanity testing, UI testing, retesting, API testing, test case design, defect reporting, and data validation for web applications. Experienced in SDLC/STLC activities including requirement analysis, test design, test execution, defect tracking, retesting, and regression testing. Hands-on experience with Postman for API testing, Jira for defect management, SQL for basic data validation, and Selenium WebDriver with Java for automation testing. Strong understanding of software testing methodologies, defect life cycle, Agile practices, and quality assurance processes.

Skills

- Manual Testing: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, UI Testing, UAT, Retesting, Test Case Design, Test Scenario Design, Test Execution, Defect Life Cycle, SDLC, STLC
- API Testing: Postman, GET/POST Requests, HTTP Status Code Validation, Assertions
- Defect & Test Management: Jira, Defect Reporting, Defect Tracking, Test Documentation, Execution Logs
- Database: SQL Basics, Data Validation, MongoDB Basics
- Automation: Selenium WebDriver, Java, TestNG, Page Object Model (POM), Data-Driven Testing, XPath, Maven
- Programming: Java, OOPs, Collections, Exception Handling, HTML, CSS
- Tools: Git, GitHub, Eclipse IDE, Excel, Figma

Experience

- Cybrathone Technology Pvt. Ltd., Nagpur** Mar 2026 - Present
Software Quality Assurance Engineer
 - Performed manual testing of web application modules covering functional, UI, regression, smoke, sanity, retesting, and data validation scenarios.
 - Created and executed 150+ test cases for payroll, employee management, and attendance modules.
 - Analysed application requirements and designed test scenarios and test cases to validate expected application behaviour.
 - Identified and reported 40+ defects, including date picker, payroll save, form alignment, and duplicate record issues.
 - Documented defects, maintained execution logs, and collaborated with developers to communicate issues and verify fixes.
 - Performed retesting and regression testing after defect resolution to validate fixes and ensure existing functionality remained stable.
 - Performed data validation checks to verify application records and expected results.
- HatchFast Software Lab Pvt. Ltd., Pune** Nov 2024 - Apr 2025
Automation Tester Intern | Software QA
 - Participated in SDLC activities, including requirement analysis, test design, test execution, and validation.
 - Designed and executed manual and automated test cases using Selenium WebDriver, Java, and TestNG.
 - Assisted in debugging issues, documenting defects in Jira, and maintaining test execution logs.
 - Practiced Page Object Model (POM), XPath handling, and data-driven testing for web application scenarios.

Projects

- E-Commerce Website Test Automation | Java | Selenium WebDriver | TestNG | Maven**
 - Automated key user flows including login, product search, cart actions, and validation scenarios.
 - Maintained reusable test data, execution logs, and test reports for regression testing.

- **Auto-Healing Selenium Automation Framework | Java | Selenium WebDriver | TestNG | Maven | POM**
 - • Built an automation framework with locator fallback strategy to improve stability against dynamic UI changes.
 - • Implemented reusable page classes, structured test execution, and maintainable test scripts.
- **Plant Disease Diagnosis Application | Android | Java | Database**
 - • Built a mobile application to detect plant diseases using image input and provide remedy suggestions.
 - • Added disease details and pesticide recommendation flow to support farmers with quick guidance.

Education

- **Gondwana University at Ballarpur**
Master of Computer Applications (MCA) 2023 -2025
- **RTMNU University at Nagpur**
Bachelor of Computer Applications (BCA) 2020-2023

Achievements & Awards

- Selenium WebDriver with Java – Simplilearn • Selenium TestNG Certification – Simplilearn • Product Management with AI – Masai / IIT Roorkee
